

[softy^{plus}]

Lounge comfortably.

[softy^{plus}] distinguishes itself by its absolute **comfortability**. The elegant metal leg is available in different colours. The mega sofa in combination with the matching ottoman is a **dream!** The optional headrest adjustment provides the extra serving comfort.

Metal colours for legs

Some legs are available in the metal colours high-gloss chrome, bronze, anthracite or black. Please indicate when ordering.

**Flexible headrest**

Some articles can be equipped with a headrest adjustment with notch function (surcharge, item no. = KV1, KV2, KV3).

**Noble runner**

A beautiful metal runner (item no. MK...) is available for surcharge and in different metal colours.

**Mega sofa and ottoman**

The type range of this model contains an unconventional sofa with an especially very wide magnitude. For everybody who wants it largely and comfortably, the matching ottoman is available. Together with the sofa it leads to a gigantic couch surface.

Thread implementation

The model is produced with the thicker, nicely in itself intertwined trout-thread in leather cover and in S37 fabric or in contrasting-coloured thread in leather cover (also with S37). See order information.

**Order information****Loose pillows:**

There are loose seat cushions at this model (except the one arm chaises). The back cushions are fixed according to the headrest function.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for end elements in the type guide.

Connecting sides:

For a surcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons, seams may be left out of the fabric version or replaced with simple seams.

Thread-implementation:

The model is generally produced with trout-thread if a leather cover is chosen. This is a thicker, nicely in itself intertwined thread. The contrasting-coloured thread implementation automatically is delivered with trout-thread, too.

Contrasting thread:

In some leather and fabric colours, this model can be supplied with a contrasting coloured thread, at no surcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. The depth measures contain protruding of the overlapping headrest, if the headrest is folded backwards.

Seat depth: approx. **58 cm**

Seat depth mega sofa: ca. **80 cm**

Seat height: ca. **43/45 cm**

Height with function: approx. **97 cm**

Loose seat cushions:

Due to loose seat cushions measures may vary. Measures were taken with oriented seat cushions.

Especially loose-fitting upholstery:

The upholstery of this model has intentionally been made especially loose to create a certain visual effect. The especially loose-fitting upholstery is characterized by an extremely soft surface. When being delivered, the cover shows a distinctive wave formation, which design- and constructionwise is being desired and can get more by usage. It is not a quality defect but a model-specific characteristic.

Information on the upholstery structure:

Chamber cushions filled with a high-quality mix of polyester fibres and foam rods have been used in the seat and back. This can lead to depression of the individual chambers, which is a typical product characteristic.

Base leg Z:

If elements and sofas with or without an arm part are to be attached directly to elements or sofas with or without an arm part, a base leg Z is required. The base leg must be

ordered separately. See price list.

4. **Back suspension** with upholstery strap
5. **Back upholstery structure** with high quality mix of latex- and foam-sticks

The design of the cross section shown here does not correspond to the model on this page of the catalogue.

Upholstered furniture made with passion.

Your model is the product of German design and engineering. Family firm W.SCHILLIG has more than 70 years' experience of technical skill, trend-setting ideas, attractive design and know-how from Germany. The result is upholstered furniture that guarantees first class comfort and attention to detail. We keep sustainability and protection of resources in mind when choosing the materials we use.

The RAL quality mark for furniture stands for the certain knowledge that this is a non-hazardous piece of furniture of reliably high quality and with an attractive design. The Deutsche Gütegemeinschaft Möbel makes sure of this with numerous tests. Inspections also safeguard the testing system.

The highest European accolade for systematic, in-house, environmental management. Improvement of environmental protection services.

Metal colours:

All legs are available in different metal colours. Please indicate when ordering. **The F L6/F P5 legs are not available in silver look. Please note!**

The legs are consciously 2 cm taller in front than behind.

Powder-coated:

The colours M21 silver, M56 bronze, M95 anthracite and M99 black are powder-coated.

Leg and seat heights:

Due to different leg heights, the model is available in different seat and total heights. The leg design has to be indicated.

Legs and floor protection:

In the case of very slender furniture legs in deliberately filigree shapes and with small surfaces it comes to a raised pressure on the floor. We recommend felt pads or another suitable mat as protection for scratches and

pressure points in connection with sensitive and/or soft floors. Even if you hardly slip the furniture it can be helpful have a carpeted floor.
